Furnace technology for thermal processing of metals & materials

SEPTEMBER/OCTOBER 2003

Editorial working for you...

Vaasa Engineering Ltd of Vaasa, Finland has received two further major orders from AvestaPolarit Stainless Oy as part of the one billion Euro, three-year investment programme in the company's stainless steel plant in Tornio, Finland. The investment includes the construction of a stainless steel melting shop and the expansion of the hot rolling facilities as well as a cold rolling plant.
